Kevin Drury

Regional Sales Manager for EnerConnex

We are excited to be part of the Katy Economic Development Council and wanted to take a brief moment to introduce ourselves. EnerConnex is a national energy consulting firm with a strong local presence here in Texas. We are proudly licensed in all deregulated states and actively serve over 2,000 customers across the United States and Mexico. Our customer retention rate of over 90% speaks to our high-level of customer service that we provide.

Our local contact, Kevin Drury, has been working in the electricity contract procurement business for over 18 years. Having been born and raised in Houston, lived in Katy since 2001, Kevin is poised to help you and your firm with all of your energy needs. EnerConnex provides electricity procurement, demand management, energy efficiency programs, and renewables for your business.

Whether your facility is small or large, industrial or a non-profit, we have the experience and expertise to help answer any questions or assist in anyway.

If your calendar allows, please reach out to Kevin via email or cell phone to schedule time to go over how we can assist you with your energy needs. We want to get to know our members and their businesses!

Thanks in advance.
